Be able to change the personal password to log in to the platform **every 60 days** (see below and instructions "IP.00.10 Change password");

Be able to upload and download files via virtual drive Z, create folders, delete files and folders on virtual drive Z

Upload files to the platform in **p7s format** (see below).

QUESTIONS

QUESTION 1

What if I forgot my password or my account was blocked?

Reply:

Account unblocking or password recovery is done only by sending an e-mail: iplatforma@tsoua.com The request must contain the user's login and be sent from the mail registered in the account. After receiving a temporary password, the user creates his personal password. The personal password in the Information Platform must contain:

at least 8 characters;

at least 1 capital letter,

at least 1 one lowercase letter,

at least 1 digit

at least 1 special character.

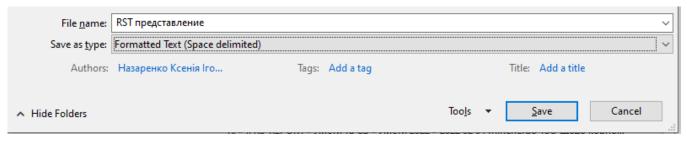

Can't upload the file to the Information Platform?

Reply:

The following steps must be performed:

- 1. Read the instructions for the relevant transaction
- 2. Download the template to your computer
- 3. Fill in the template and save it in .txt format

- 4. Open the .txt file and make sure everything is displayed correctly (including checking for spaces and tabs after the last visible character in the line)
- 5. Upload the *p7s file* to the appropriate transaction
- 6. Submit the file for verification

In case of nomination / renomination at virtual underground storage points, check the EIC codes of virtual points:

- entrance to the gas transmission system from 56ZE-SSO-0000002 gas storage facilities (gas extraction from UGS)
- exit from the gas transmission system to gas 56ZG-SSO-000000D storage facilities (gas injection to UGS)
